

Gardening School

On-line Brochure for Series 20
Course 4

Wednesday & Thursday

November 10~11, 2021

9:00 AM ~ 5:00 PM

zoom

Course 4 will be presented live via Zoom

Important Tech Requirements

All participants must:

Have a desktop or laptop computer, tablet, or iPad
with audio and video capability.

Attend a practice session (Tech Check) on

Sunday, November 7th at 4:00

to confirm your ability to use Zoom.

*If you are a frequent participant in Zoom courses you may be excused
from the practice session with the consent of the Michigan Gardening
School Chair, Denise Clegg. Contact Denise at:*

dclegg@migardenclubs.org

Course 4 Curriculum

Plant Classification and Nomenclature

Outdoor Identification of Plants

Specialized Garden Styles

Techniques of Growing Woody Ornamentals

Pruning Techniques

Supplemental Subject: Cold Climate Gardening

Course Requirements

To receive course credit,
all ten course credit hours must be attended
in-person, at the time of the presentation.

Prospective consultants
must pass the course exam to receive credit.

You may rely on notes, outlines,
and screen shots of the presentation

Consultant Certification

The Consultant Certification Card is issued to NGC members after they have completed Gardening School Courses 1-4 with a passing grade of 70% or better on every exam. These four courses must be completed within seven years. If you wish to become an accredited Gardening Consultant, you must take the optional exams.

After passing two courses, a student will become a Provisional Consultant and join a Consultants Council. To remain in Good Standing, Gardening Consultants must continue their education by attending a GS Refresher or a GS Course every five years, no exam required. Following a Consultant's fourth refresher, the Consultant becomes a Master Consultant. Both Consultants and Master Consultants may earn refresher credit only once in a calendar year.

NGC

Gardening School Objectives

All gardeners can become accomplished horticulturists. To assist its members in achieving this goal, National Garden Clubs, Inc. created the Gardening Schools. A school is a series of four, two-day courses designed to:

- Stimulate interest in the growth of plant materials to their peak of perfection.
- Give the student an understanding of how and why a plant grows.
- Teach soil structure and methods for making the soil more productive.
- Provide an understanding of plants' reactions to certain weather conditions and how to modify these conditions to encourage optimal growth.
- Provide an understanding of commercial and natural fungicides and pesticides, growth regulators, and other chemicals used in general horticultural procedures.

NGC

Gardening School Objectives

continued

- Illustrate methods for rapid propagation.
- Offer plant identification instruction.
- Explore growing techniques for garden plants, vegetables, fruits, houseplants, trees, shrubs, and specialized styles of gardening.
- Develop a respect for and appreciation of plants and their roles in our lives and activities.

Gardening Schools provide current information to those interested in horticulture and related topics. The curriculum has been developed by National Garden Clubs, Inc. (NGC), and is customized by the course instructors. Classes are open to the public as well as garden club members. Garden club members who complete the series of four courses (and pass the exams) are certified as an NGC Gardening Consultant.

Committee

National Garden Clubs Gardening School Chair:

Charles McLendon

State Gardening School Chair: Denise Clegg
