

Tips when dropping off fresh produce

1. "Fresh Produce Donation Guidelines for Gardeners" Michigan State University Extension can be found here:

[Fresh Produce Donation Guidelines for Gardeners - MSU Extension](#)

2. Confirm best day/time to deliver and address for drop off with pantry
3. Ask if there are any packaging or labeling requirements (recommendation is to use paper not plastic, when possible, use recycled materials)
4. Keep track of how much you have donated (estimate # of pounds) and let your Garden Club know or fill out the brief NGC Plant America Feed America form yourself periodically (maybe once a month, or at the end of the growing season). Ideally, each Garden Club will be tracking cumulative amount of donations and filling out the Plant America form.
